

Dhanasekar J

JUNIOR FRONT-END DEVELOPER

PROFESSIONAL SUMMARY

Motivated Front-End Developer with 2+ year of experience specializing in Angular (v16–20). Proficient in building scalable and responsive web applications using modern UI frameworks and component libraries. For the past 6 months, actively involved in workflow management—collaborating closely with backend teams to plan and execute weekly workflows. Adept at translating business requirements into efficient, user-friendly interfaces. Passionate about delivering clean, maintainable code and improving frontend architecture.
